Jan Szynaka

The President of the Polish Chamber
of Commerce of Furniture Manufacturers

Dear All,

We are immensely proud that we can present to you the fourth edition of the Export Catalogue of the Polish Furniture Industry – it presents a great potential of the Polish furniture industry, thanks to which there are no geographical borders for our products. Furniture from Poland has been the synonym of the highest quality, modernity and great global design for many years and that is why it is eagerly chosen and appreciated by customers worldwide.

For many years the Polish furniture industry has been one of the leaders in furniture manufacturing on the international stage, occupying 6th place in the global ranking of furniture manufacturers.

What is more, we occupy a very high position in the global ranking of furniture exporters – taking 2nd place just behind China. The value of the furniture market production in 2019 exceeded PLN 50 billion, which is a new record in the furniture industry!

The Polish furniture industry plays a significant role in our domestic economy. In 2020, more than 30,000 companies connected with furniture manufacturing were registered in Poland, which offered direct employment to nearly 200,000 people. It is confirmed by a very high share of our sector in GDP, which has exceeded 2%.

The global furniture market means continuous challenges that Polish furniture manufacturers have to face. The European market is slowly getting too small to make it possible for our industry to develop dynamically. That is why we have to be more open to new sales markets, also those more remote ones with different cultures. Obviously it is challenging, but Polish companies from the furniture industry are winning greater trust and are playing an increasingly significant role within the scope of international cooperation. As an example of such activity might be a participation of seven key Polish furniture brands at the stand in trade fairs in High Point, in the US. It was an unprecedented event.

The year 2020 was a very difficult for the furniture industry. The ongoing SARS-COV-2 pandemic is a constant uncertainty about how our factories are run. We feel insecure, but also concern about the health of our relatives and employees, who are very important in furniture factories. We deeply hope that in a new year 2021, the new markets will be opened for Polish furniture and the great national strength of Polish furniture in the international arena will be proven. We also hope that the SARS-COV-2 pandemic will subside and that the furniture markets will again be stabilized and optimistic.

I encourage you to read the Export Catalog of the Polish Furniture Industry and familiarize yourself with the diverse offer of Polish furniture manufacturers and to establish business contacts with them.

Michał Strzelecki
Office Director of the Polish Chamber
of Commerce of Furniture Manufacturers

The Polish furniture sector is an export leader

Recent years have proved that Poland is the global leader in the production and export of furniture. The high quality of the furniture manufactured in Poland and relatively low labour costs are the main factors contributing to this success. In addition, the many years' tradition and efforts of large, medium-sized and small enterprises should not be forgotten. Data on production prove the success of the Polish furniture sector, and recently the country has moved up the global ranking of furniture manufacturers – from 10th to 6th position.

Poland manufactures all types of furniture, allowing to differentiate and adapt the products both in terms of available materials and their finish and design. The Polish furniture industry certainly uses high quality materials and components, and we have access to the latest technologies as well.

The furniture industry remains one of the most significant sectors of the Polish economy. In 2019, the value of sold products of furniture companies amounted to **PLN 50,1 bn**, which accounts for as much as **6%** growth compared to 2018 (including micro-enterprises with less than 10 employees). According to the forecasts by B+R Studio, the value of products sold by the furniture industry in 2020 will account for **PLN 50.0 bn** (including micro-enterprises).

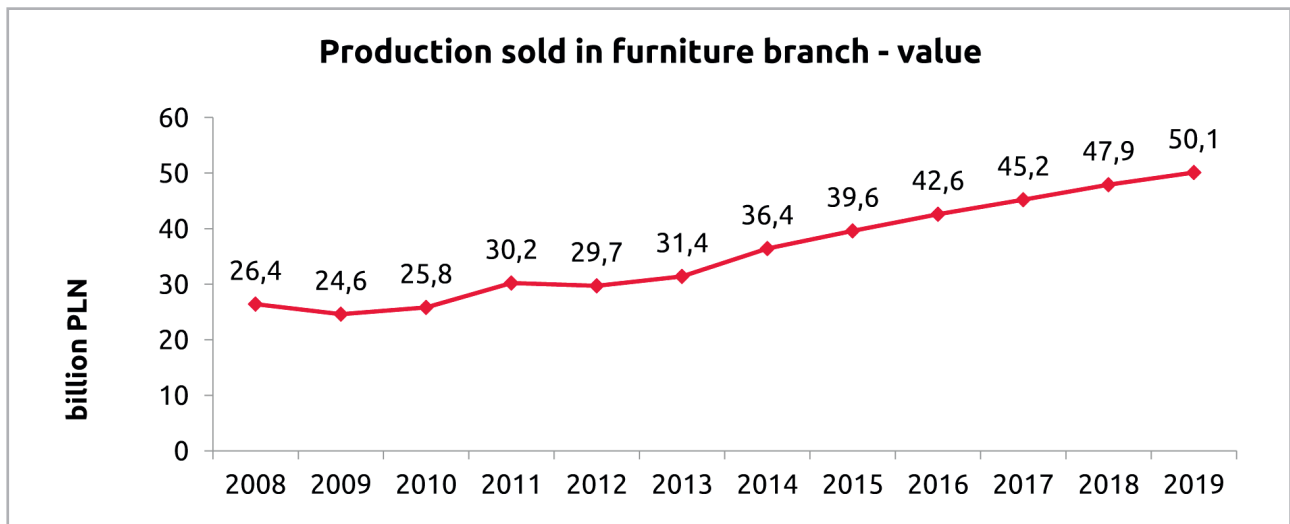

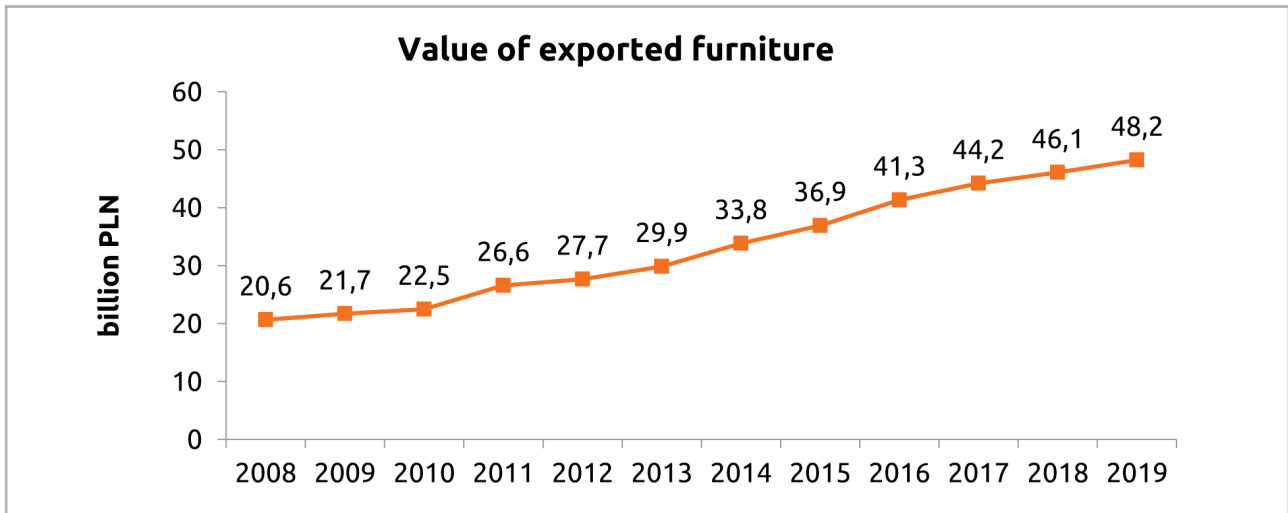

Fig. 1 Sold production of the furniture sector in Poland in 2013 – 2019
Source: calculations of the Polish Central Statistical Office

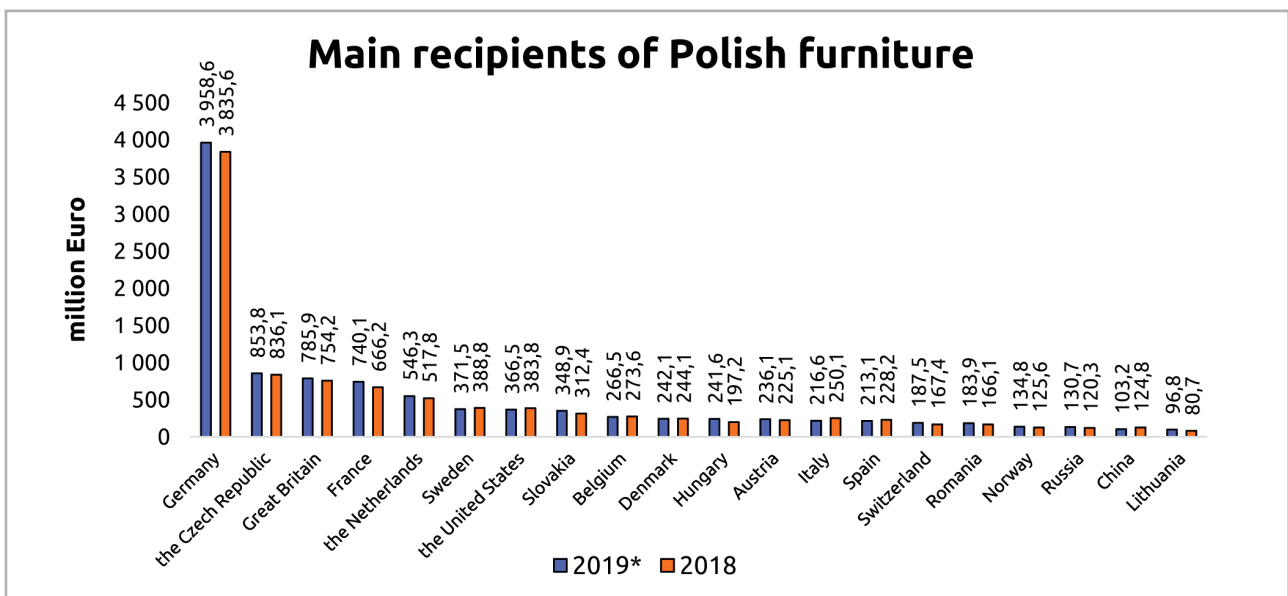

The Polish furniture sector ranks second (after Italy) in terms of registered companies selling furniture. More than 29 thousand entities are involved in the manufacture of furniture in Poland - more specifically, at the end of 2019, the number was **29,456 companies**. Out of these, 80 entities are large companies with more than 250 employees, 300 entities are medium-sized companies (50–249 employees), 1,500 are small companies and 27,576 account for micro-enterprises with less than 10 employees.

Export is without doubt the major driving force for the Polish furniture sector. In 2019, Poland ranked 2nd in the global furniture manufacturers' ranking due to its exports accounting for EUR 11.2 bn. According to the data published by UNO, as regards the value of export, in 2019 Poland was overtaken by China (USD 51 bn).

According to Eurostat, 2019 is another year to generate record export of furniture. The value of export in Euro increased by **6%**, accounting for EUR 11.2 bn. Over the last nine years, the value of export of Polish furniture **increased by more than 85%**. According to the forecasts by B+R Studio, in 2020 the value of furniture export from Poland will exceed EUR 11.3 bn.

Germany has been the main importer of Polish furniture for many years – EUR 3.958 bn. Export to the Czech Republic, the second largest importer, reached EUR 853 bn. Further positions are occupied by the UK and France.

Opportunities for the Polish furniture sector

Poland is one of the fastest growing countries in terms of furniture production. Its perfect geographical location near the wealthy Western European countries gives it competitive advantage over many other countries. Its long tradition and well established position among recipients of furniture in Europe give the Polish furniture manufacturers customers' trust and brand awareness. Additionally, the opportunities of the Polish furniture sector include that of a greater share in the markets of developed countries and emerging markets.

We are the largest furniture group in Poland. We have been successfully manufacturing and distributing top quality furniture and home accessories for 30 years.

KEY FACTS:

7,781 people employed
19 manufacturing plants
55 is the number of countries we export our products to
2,000 showrooms and stores selling our products

A reliable partner in business

We have been in operation for three decades. During this time, we have achieved the status of an experienced leader. We have successfully processed and delivered thousands of demanding orders all over the world. We are present in numerous foreign markets and thanks to our hard work supported by knowledge and experience we gain trust, winning more and more business partners.

www.brw.com

Product range

By virtue of our many years of experience and constant progress and expansion, we now have one of the largest and most comprehensive furniture ranges available. Our portfolio includes simple, standalone products as well as consistent furniture collections to suit all kinds of interiors.

Our product selection includes furniture for: living room, dining room, teen bedroom, youth and nursery room, home office, bedroom, hallway, kitchen as well as upholstered furniture, mattresses, tables and chairs.

11

Complete Line Technology

In manufacturing process we use the unique Complete-Line technology, which permits the foil to imperceptibly cross from the surface area to the edge (seamless lamination). Complete-Line also allows for the visual enlargement or reduction of the furniture edge.

Export offer: hotel furniture and accessories, bathroom accessories, mobile partition walls

Main export markets: Europe, Middle East

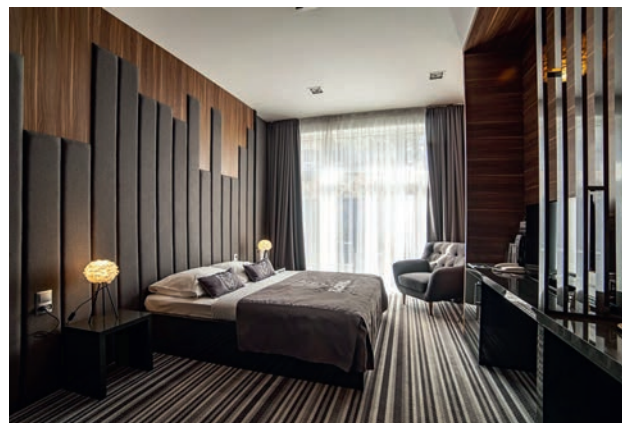

Quality means precision, love for detail and ergonomomy

The tree means strength and stability. It is a symbol of durability, guarantee and longevity. It grows out of a small seed and can take a massive size, thus it withstands the adversities of nature. We are very similiar. For 20 years we have grown and made expertise, we have conducted next projects and faced new challenges. Like the tree we have grown in size and can offer the clients more and more.

From nature we take the best examples. Like nature we are flexible and we can adapt to a concrete project. With pride we deliver excellent solutions to the most demanding clients.

www.bumera.pl

Contact method

By joining each furniture part we use an adequate number of pegs and contact sealing. This solution guarantees durability and prolongs the product longevity by 10 years in the opposition to the standard sealing method.

Opportunities

We have an innovative production line on a European scale which allows delivery of a product of the highest quality and care for every detail of a project. Thanks to reliable technology and professional team of workers we are able to make every client's idea come true.

Technology and quality

Since the beginning of the company, one thing remains unchanged. It is the quality. It defines the superb finishing precision, the choice of the best materials, the control process at every production stage, and finally, it guarantees the client's satisfaction. We can pride ourselves with longterm verified durability of our furniture. This could not be possible without a certain backroom.

From generation to generation

Our company is grounded in longterm family-made experience in furniture production that goes back to 1993. Since the very beginning we set out with the production of hotel and office furniture on the highest level. Today, we can pride ourselves with our own complex technology park that allows the conduction of every project and task. Our professional team can deal with every challenge.

Company

Dignet Lenart sp.j. - the owner of Lenart brand, is a renowned manufacturer of modern and multifunctional furniture for children's and teenagers' rooms, living rooms, dining rooms, bedrooms and hallways, among others.

Founded in 1992, the family company bases its strategy on the use of the latest technologies and modern management methods, guaranteeing professional and comprehensive customer service, price flexibility and on-time delivery.

Investments in the development of machinery, the use of modern logistic systems and constant improvement of staff qualifications, allow the company to compete effectively on the European furniture market. The recognition of Lenart products is primarily influenced by the quality and high design level of furniture, which is confirmed by customer feedback and numerous industry awards.

www.lenartmeble.pl; www.concept-lenart.com

Brand

Lenart brand products meet the needs of modern users - they are well thought out in terms of ergonomics and functionality, and at the same time they are modern and attractive in terms of design. The mission of the Lenart brand is to design universal and easy to arrange furniture, which will allow to maintain a compromise - to reconcile the needs of all household members with the limitations of small rooms. It is a multi-purpose furniture, created in such a way as to make the most of its potential.

The designers of LenART DESIGN's internal office actively follow the trends, which is why all furniture is distinguished by its modern and fashionable design. They are universal at the same time - a wide range of patterns, colours and textures makes them fit harmoniously with other furniture in the apartment and different interior design. Lenart proves that small rooms are no obstacle to living comfortably, fashionably and tastefully.

Dolmeb Sp. z o.o.

Address: Stalowa 25 St., 58-100 Świdnica, Poland
Phone: +48 746495630 **Fax:** +48 746495644 **Mail:** swidnica@dolmeb.pl
Tax No.: 8842304176 **REGON:** 891072883 **KRS No.:** 0000086926

Export offer: children, living room, bedroom furniture like:
wardrobes, chest of drawers, bookcases, beds, bedside tables etc.

Main export markets: Europe, North America, Russia

DOLMEB is a modern furniture producing company based in Swidnica, south-west of Poland.

We have 75 years of tradition in furniture production. We offer cooperation for our customers only on B2B relation, producing mainly ready-made, flat packaged furniture as a Private Label for main European retailers, or components for furniture producers.

We produce high volume, low cost chest furniture made of wood based boards. Our speciality is lacquering. We use MDF for painting any shape of furniture. Waterborne lacquers on our products are environmental friendly and user safe – also for children. We have spraying lines allowing us to paint any profile and flatline rollercoaters with UV curing, providing efficiency and durability.

www.dolmeb.pl

Our unique offer is Board-On-Frame – lightweight material that is perfect for producing heavy-looking, thick furniture components with lower cost and weight, compared to classic particleboard. Honeycomb paper core gives it extreme durability and lightness – so important for any e-commerce products.

Laminated particleboard is broadly used to complete our products. We buy it from top European producers. We can use plywood and veneered HDF as well, finished with oils or varnish, whenever quality is preferred over price.

Quality is one of top priorities in our company. All customers can rely on our products. Feel free to define critical test parameters, which we can verify in our internal test lab, or any external one, at the beginning of production or periodically. Our internal procedures will guarantee that all delivered batches will be exactly the same.

Whenever you look for chests, wardrobes, beds, bedside tables, bookcases or other board based furniture, we'll be pleased to answer any of your requests!

Dom Expo Furniture

Address: Sloneczna 129 St., 05-506 Lesznowola, Poland

The Taranko Meble company is a furniture factory with decades of experience. Taranko Meble means high quality, rich design, classic style and a diversified palette of colours. From the beginning of its existence on the market, the company has been a leading producer of stylish furniture. In order to meet the needs of a wider group of customers, a few years ago the company introduced on market modern furniture models.

www.mebletaranko.pl

The beauty of the form and exquisite design, along with the solid construction, are the main assets of our furniture. We use the best quality raw and semi-finished materials. The whole process is controlled by an experienced and well-prepared team of designers, technologists, production and logistic specialists. All this has a significant impact on the final features of our furniture: its quality, durability and interesting design. Our furniture offer is very wide, tailored to the needs of our partners. Our furniture is exposed at international furniture fairs where it attracts attention as well as receives awards and prizes for good quality, style, design and innovative character. Thanks to the export to many European and non-European countries, Taranko furniture is recognizable not only in Poland and Europe.

Fabryka Mebli Taranko guarantees a stable and long-term co-operation with potential business partners from all parts of the world.

FABRYKI MEBLI „FORTE” S.A.

Address: Biała 1 St., 07-300 Ostrów Mazowiecka, Poland

Export offer: ready-to-assemble furniture

Main export markets: Germany, France, Spain, Switzerland, Austria, Czech Republic, Italy, Hungary, Romania, United Kingdom

FABRYKI MEBLI „FORTE” S.A. is a leading Polish manufacturer of ready-to-assemble furniture. The Company founded by Maciej Formanowicz commenced its manufacturing operations in 1992 and in 1996 it debuted on the Warsaw Stock Exchange. FORTE has five production facilities located in north-eastern Poland, including the chipboard plant that was commissioned for operation in April 2018 in Suwałki and one factory in India. The total production area of all facilities of the FORTE Group amounts to 160,000 m² and is supported by a substantial warehousing facility that totals 112,000 m².

FORTE is a strong corporation whose business operations are based on universal values, namely: responsibility, growth, cooperation and sensitivity.

We care for the quality of the product at each stage of its production. It is confirmed by the Quality Assurance System implemented throughout the Company in 1997 which is in compliance with the ISO 9001 standard. Our care for natural environment made us implement the Environmental Management System in accordance with the ISO 14001 standard. We take great care in sourcing raw materials which meet the highest standards and have appropriate certificates which enable sustainable production. It is evidenced by FSC® Chain of Custody System compliance certificate (FSC®-C118178) which we have been holding since 2013.

Business ethics is also important to us. Since September 2019, we have been listed on the WIG-ESG index, which includes the largest companies on the WSE conducting socially responsible activities. Our ethics awareness and responsibility are also attested by positive assessments of ethical audits conducted in accordance with the SMETA procedure. Audit reports published on the SEDEX platform prove that FORTE operations are conducted in compliance with the international code of ethics, i.e. ETI Base Code.

Since 1992 FORTE has cooperated with over 4500 recipients whilst conducting sales of our products in over 40 countries around the world. Our export constitutes over 80% of the production and the Company has its own sales organizations on the leading markets. In 2017, we established a joint venture company FORTE FURNITURE PRODUCTS INDIA PRIVATE LIMITED in India based in Chennai together with the ADVENTZ Group. The products made in the Indian plant are marketed mainly on the Asian markets such as Indian, Pakistani and Malaysian ones.

FAMOS Sp. z o.o.

Address: Gdańska 37 St., 83-200 Starogard Gdański, Poland
Phone: +48 585623041 **Mail:** commercial@famos.com.pl
Tax No.: 5922060295 **REGON:** 193058449 **KRS No.:** 0000212466

34

Gala Collezione is a brand combining sleek and modern design with the highest quality. Since 2001, we have been inspiring our customers to create beautiful spaces and individual arrangements in their homes. Our ambition is to create beautiful, functional and diverse furniture that provide the interior with an individual character and form the central meeting place for family members and guests.

www.GalaCollezione.com

Kuyavian-Pomeranian Region (in Poland), in which four of our production plants are located (Lisi Ogon, Gniewkowo, Chełmno and Tuchola), is famous for its long-standing tradition of furniture manufacture, which we nurture with passion. When designing our leather couches, corner settees, armchairs and modular systems, we primarily think about the individual needs of our customers. We want to provide them with the furniture, that can be easily adjusted to the size of their guest room due to various dimensions.

When choosing Gala Collezione furniture, customers can be sure that all the materials and components used for the production have been subjected to a thorough quality control immediately after delivery to the factory and the final product – which will be delivered to their homes – meets all technical requirements and quality standards.

A choice of furniture arrangement, features, finishes and type of upholstery of Gala Collezione lounge suite provides every interior with individual character and elegance. Currently Gala Collezione employ around 700 full time staff across the four factories and approximately 150 sets of furniture are produced daily.

Bozzetto means sketch...

A sketch is the first physical trace of our ideas. Self-developed brand Bozzetti combines many years of experience in interior design and a multigenerational tradition of carpentry crafts. We propose original, outstanding solutions, in order to create future-proof forms which we believe will resist fleeting trends. Our furniture is fully produced in Poland. Our products are durable and comfortable. This is achieved by carefully selecting materials and setting high quality as our main priority.

We offer a constantly developing and growing collection of furniture with various functions. The range of production is limited only by our creativity. Some of our designs, through additional functionalities and the possibility of customization, allow greater freedom of use. Others, in both form and function, are simply for enjoyment.

www.bozzettidesign.com

Over 25 years of experience in customised design and production of furniture means that Grupa Bozzetti, better than anyone, understands, cares for, and delivers the best and most timeless design, as well as the highest quality of workmanship. Our products are appreciated not only by customers, but also by interior decorators and stylists cooperating with our brand. The trademarked brand of Bozzetti is also a laureate of prestigious competitions and awards. The aim of the brand is to build awareness of Polish design in the world and to promote the Polish carpentry tradition. Please visit our website, where you can find our products, as well as configurators that allow for customisable creation of individual products from the collection in terms of colours and finishing materials.

37

Bozzetti can also individually design a piece of furniture or a collection for a given theme or develop a separate colour scheme for products from the brand's permanent collection for specific chain stores. All of our projects are copyrighted and are registered in EUIPO.

Are you looking for a flexible and reliable partner to start a long-lasting mutually beneficial collaboration?

Whether you need a standard product or a solution tailored to your individual needs – the experienced Herkules Team is at your disposal.

www.herkules.eu.com

Bonnell innersprings

All-round performance in a classic format Bonnell innersprings are probably the best known and most universal system for upholstered furniture and mattress manufacturing. Thanks to their shape, Bonnell innersprings are valued for their characteristics of progressive springiness and very good air circulation. Herkules offers three lines of Bonnell innersprings: Normal, Semi and Mini.

- Normal: Classic Bonnell system available with 4 and 5 turns
- Semi: Classic system available in a range of options, height adjusted for upholstered furniture
- Mini: Classic system with 4 turns at low coil heights

Pocket innersprings

Two faces of comfort Pocket innersprings offer improved flexibility in various formats. Each individual spring is packed into a fabric pocket and later glued to other pockets to become a pocket innerspring unit. This sophisticated system means each spring can perform individually creating excellent flexibility and body support. Herkules offers two main types of pocket innersprings: Punktoflaex (centre-glued) and Surface-Bonded. In addition we can offer special products such as Multipockets, Low-Height or Interactive pockets.

- Punktoflaex: Centre-glued, classic pocket innerspring system with very good flexibility of every single spring delivering a high degree of body support
- Surface-Bonded: Cost effective pocket innerspring system with an extra fabric sheet glued on top and bottom allowing for easy handling in upholstered furniture saving time and money

Zig-Zag springs

Long-lasting elasticity for your upholstery Zig-Zag springs are the most durable innerspring system for upholstered furniture. Long lasting flexibility and elasticity makes them the most popular solution to support seating made of Bonnell, foam or pocket innersprings. Herkules offers two classic types: Normal Zig-Zag springs and XL Zig-Zag springs – as well as a variety of custom solutions. Depending on the required level of comfort and seat height, flat and round versions are available in wide range of dimensions.

- Zig-Zag Normal: Our standard system (> 20 waves / metre) offers ultimate springiness for seat and back
- Zig-Zag XL: Optimised use of raw material (< 20 waves / metre) makes this system a popular solution for high volume furniture production

Not only customers are pleased with the activity of our company, but we have also been repeatedly appreciated by experts from the furniture industry. Companies that decide to cooperate with us can have every confidence in professional and reliable service.

LENORT FURNITURE

Address: A.Fredry 3 St., 63-600 Kępno, Poland
Phone: +48 693776770, +48 696381231 **Mail:** info@lenort.eu
Tax No.: 6191912116 **REGON:** 251538593

Export offer: upholstered products including: functional corners, functional sofas, products with relax functions including with electric seat depth adjustment, traditional beds and box springs, box springs with solid oak frame, mattresses

Main export markets: European and non-European markets [Asian, American, African]

LENORT FURNITURE is a company that has been on the market for over 20 years. Its activity is based on selling mainly upholstered furniture, but also accessories at wholesale prices to customers from around the world. Its policy is based on minimising the cost of transporting goods, but also the risk that a potential customer may face.

For more than 20 years on the Polish market, for more than 10 years on the international stage – this is how LENORT FURNITURE presents itself. The range of business contacts and opportunities that business owners can boast is staggering. Continuous work on improving the services provided and creating strong and long-term relationships with Business Partners makes the company enjoy a good reputation in the industry, recognition and respect. This attitude allows you to participate in industry events, fairs and conferences to promote the products offered.

www.lenort.eu

LENORT FURNITURE OFFER

Working in cooperation with the leading manufacturer of upholstered furniture in Poland, Fabryka Mebli WER-SAL Kaczorowscy Sp. J. , Lenort Furniture has a very extensive product range. As an authorized dealer of the factory's brands, it offers multifunctional products, with only the most necessary equipment. The WERSAL brand, offered by Lenort Furniture, reflects a collection of upholstered furniture - corners, sofas and beds - which are the perfect finish for the living room, guest room or bedroom. It is worth mentioning that apart from classic rest, the offer also includes models designed for youth rooms and sets ideally suited for offices or home offices. LENORT Furniture does not close its doors to other possibilities - by promoting WERNIGHT, it offers its customers a line of several dozen mattresses and axes. The use of innovative technologies, perforated foams, latex or coconut mattresses takes the subject of mattresses to a higher level. The offer also includes WERNATURE products - industrial benches, tables and shelves. The solid oak chest of drawers and bedside tables are a perfect match for the massive wood box springs products - together creating a fully equipped bedroom. In addition to offering such a variety of products, the company's customer service focuses on providing attractive delivery times. In addition, Lenort Furniture offers its partners a full range of fabrics, with

more than 60 different types and over 600 colours in total. It is precisely the flexibility and individual approach that allows for building long-term professional relationships. This is LENORT Furniture.

LENORT FURNITURE LENTS

The range is unlimited, there are no borders. Lenort Furniture currently focuses on the Scandinavian and Western European markets. Nevertheless, apart from the European market, the company offers its products to its partners from Africa, USA and Asia, which makes it an international player in the furniture industry.

FOR US, FURNITURE IS UNIQUE

- IT IS THE FURNITURE THAT GIVES THE CHARACTER OF THE INTERIOR, WHICH BECOMES A UNIQUE PLACE FOR US - THE HOME

M7 Polska – Gordon Milne

Address: Niedziałkowskiego 2/12 St., 61-578 Poznań, Poland

Phone: +48 515473315 **Mail:** gordon.milne@m7polska.com

Tax No.: 7811152210 **REGON:** 300044583

Export offer: contract furniture (care homes, hospitals, Horeca, banks, offices, schools, university accommodation) and domestic upholstered furniture and cabinetry

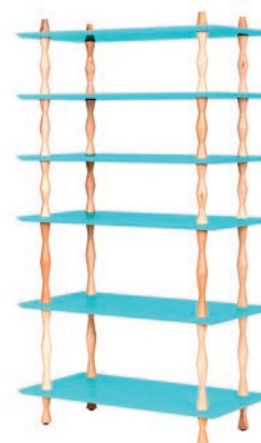

Main export markets: Germany, France, Ireland, Great Britain, Australia

Fine Furniture from Poland

That's our motto. We are rightly proud of our furniture!

M7, founded in 2003, has been working with over 20 Polish furniture manufacturers during the past 17 years – and still is !! We cover every spectrum of the furniture industry, from upholstered dining and living room furniture to solid wood sideboards and tables, from Corian cupboards to steel shelving, from electric or manual recliners to medical cabinets, disinfectant and covid trolleys. We act as an export agent for Polish companies which are normally medium to large, modern family run businesses. In turn, we have clients from Germany, Ireland, France, Britain and Australia for whom we act as sourcing agent.

www.m7polska.com

We are a British-Polish family-run company ourselves, who understand the problems faced by our clientele from abroad, but also understand those faced by our Polish manufacturers.

We cross cultures and help to overcome any difficulty, any misunderstanding that may arise. You can either locate your production in one of our many factories, or if you have a very specific request, we will search and select a factory especially for you. We do not just leave it there though. We develop and nurture the project, taking care of all issues that may arise: developmental, financial, contractual as well as logistical. In so doing we establish, on your behalf, long-lasting permanent relationships - our manufacturers are not interested in "one-order-wonders", but always have your long term interests at heart - which means they will concentrate on quality in order to win your repeat business.

Most of our furniture is made for the contract market:

- Care homes and nursing homes
- Hospitals and institutes of challenging behaviour
- HoReCa
- Retail outlets (shops /shopping centres)
- Online retail sites
- Schools, colleges, universities
- Halls of residence
- Banks and offices

Whatever you may require, send us a picture, a sketch, a drawing, or a sample and we will do our best to help you.

We look forward to working with you.

Making 4.0 - Connecting Malaysia and EU

Mail: info@making40.eu
Main export markets: EU, Malaysia

“Making 4.0” has been funded with support from the European Commission

(project ref. no.: 598783-EPP-1-2018-1-ES-EPPKA2-CBHE-JP)

What is Making 4.0

Saluted as MAKING 4.0, the European-Malaysian consortium project entitled Improving Malaysian HE Knowledge Towards a Wood and Furniture Industry 4.0 is an effort aiming at an innovative international Master’s degree program related to Industry 4.0 (I4.0).

Tailor-made for professionals, engineers, and skilled manpower of the smart furniture factories, MAKING4.0 emphasizes on the required ICT skills for boosting the competitiveness of the woodworking and furniture industry of Malaysia.

Classified under the Capacity Building in Higher Education of the European Union’s ERASMUS+, MAKING 4.0 project is manned by the European-Malaysian consortium of four participating European and five Malaysian institutions. Over thirty members are involved towards realizing a high-level training on technological trends and advances related to industry 4.0. While targeting to uplift students, participating Malaysian industrial players, and unlimited interested parties, participating partners are mandated to encourage internationalization in accordance with the

www.making40.eu

“Bologna Process Implementation” guidelines emphasizing inclusivity, accessibility and competitiveness.

From the lenses of the Malaysian wood and furniture sector which is currently generating MYR8 billion export revenue and projected to skyrocket to MYR23 billion in 2020, MAKING4.0 project serves as a gateway to the government’s nation-building and manpower development goals.

This mirrors the prominence of the European Commission co-funded project as a means of realizing the I4.0 through a higher degree program in line with the national I4.0 Policy Framework.

To promote cooperative activities and provide more opportunities for students to gain specific and transversal skills related to modern timber industry.

To push active collaboration and partnership between Europe and Malaysia in order to obtain an impact on creativity, modernization, and internationalization of HE fields related to Industry 4.0 in wood-working industry.

To boost the 4th Industrial Revolution in the timber industry of Malaysia as the technological frontier amongst all Asian manufacturing industry working towards a smart and sustainable industry.

PARTNERS:

EUROPEAN:

Universidad Politecnica de Cartagena, Spain (UPCT)
Technological Centre of Furniture and Wood, Spain (CETEM)
Warsaw University of Life Sciences, Poland (WULS)
Karlsruher Institut Für Technologie, Germany (KIT)

MALAYSIAN:

Malaysian Timber Industry Board (MTIB)
Universiti Kebangsaan Malaysia (UKM)
Universiti Sains Malaysia (USM)
Universiti Putra Malaysia (UPM)
Universiti Teknologi MARA (UiTM)

Objectives

To develop an innovative Master’s degree to modernize the current training in wood and furniture industry in Malaysia and other participating countries.

To create an innovative learning pathway that equips higher education students to gain specific and transversal skills related to modern woodworking industry with the most important competencies and skills related to Industry 4.0.

and worldwide up-to-date. We carry out house tests of our furniture, for special requirements of our clients we also test our items in an approved laboratory. We carefully look after the highest quality of our goods on every step from production lines to arrival at our end-customers door.

Mega Sp. z o.o. RAGABA

Address: Silesia 9 St., 59-550 Wojcieszów, Lower Silesia, Poland

Phone: +48 607092522 **Mail:** j.bielawska@ragaba.eu

Tax No.: 6112557863 **REGON:** 20094020 **KRS No.:** 0000237958

Export offer: flat packed, semi assembled ready for online sale smart furniture for homeoffice, living room, bedroom and sleeping room. High res pictures, descriptions of products and XML file with all products details. Dropshipping service in EU

Main export markets: Europe, Middle East, North Africa

RAGABA

KEY FACTS::

- Robust packaging prepared for courier shipping
- Over 2000 furniture pieces send as parcels every month
- Great design with beautiful wooden elements
- 16 colors in standard, 3d models of products
- 60 highly motivated co workers
- IT automatization ready

Experience

Our company was established in 2005 as a producer of solid wood furniture parts. We have extensive experience in solid wood working: milling, turning, CNC production etc. Our knowledge, which accumulated during these years of woodworking, led us to create our furniture brand in 2013.

www.ragaba.eu

Brand and design idea

The name RAGABA comes from the acronym RGB-red, green and blue, as colour is in the centre of our interest. Colours influence our mind, body and emotions, so we offer in standard 16 various colours to support users. We believe that every room deserves to have at least one nicely coloured piece of furniture.

The idea behind our brand is to produce and market affordable furniture with a hint of fine/smart design. All our products are a flat pack, very easy to assemble and made of sustainable materials. We design some additional features in each product to support users. Our products are FSC certified. We are proud to be an European employer. Our products are manufactured with love by valued and fairly treated employees.

Reliable and agile partner.

As e-commerce is developing rapidly, new IT solutions are being introduced and clients are being more challenging, you need a reliable partner to be part of your success. For us it is not about being your supplier, we aim to be your partner and to improve shopping experience for our mutual customer.

To fulfil that, we keep our machines and facilities up to date, take beautiful pictures of our products, create great working experience, redesign and improve packaging, as quick as we notice some over standard damage rate. We place great emphasis on prompt delivery, as we know that ecommerce clients are not willing to wait for their order too long.

We are also very proud to be able to swiftly introduce new IT solutions that ease every-day work of our ecommerce partners.

**AGILE PRODUCTION,
FAST DELIVERY**
AND RELIABILITY ARE A
PRIORITY WITH US.

Export offer: wood coatings
Main export markets: global

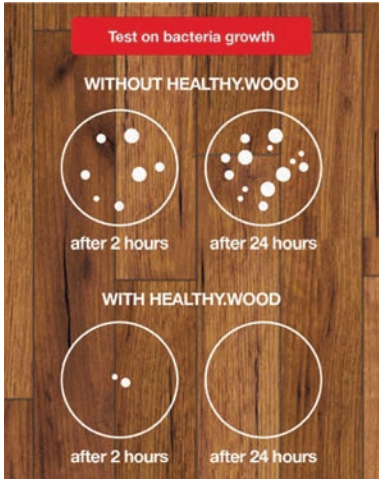

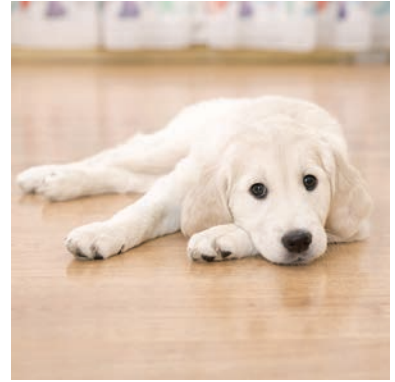

Milesi services the professional user, from the craftsman to large industrial customer, through countless high-tech solutions developed internally thanks to the team of over 200 Researchers and Expert Technicians.

Nowadays in Italy **Milesi** coatings are manufactured and distributed by **IVM Chemicals**, a company of the **IVM Group** that from its headquarters in Parona, in the province of Pavia, focuses on the Italian market as well as on those markets in North America, Europe, Africa, Middle East, Asia and Pacific not directly serviced by a local IVM subsidiary.

Milesi is a brand of the multinational **IVM Group**, among the largest and most reputable in Europe and in the world specialized in wood coatings. Milesi coatings and complimentary products were born in Italy in 1947, a country that has always been a point of reference wood finishing industry. The brand has in fact been developed and perfected thanks to the constant interaction with the wood and furniture industry, a national excellence appreciated all over the world.

www.milesi.com

Coming from Milesi research, **HEALTHY.WOOD** is the **new line of sanitizing self-sealers and topcoats** which provide long lasting and extensive protection against bacteria growth, making the use of sanitizing cleaners almost redundant. Laboratory tests show how the sanitizing HEALTHY.WOOD MILESI finishes **inhibit bacterial growth beyond 99,99%** assuring maximum protection and hygiene on surfaces while leaving aesthetic features unchanged. HEALTHY.WOOD MILESI coating are the ideal choice for all situation where Hygienic condition are a must: from home environments to all public spaces, for all those objects which are handled frequently.

Silver strong sanitizing action, the core of the formulation, combined with the innovative technology developed in the MILESI Research Laboratory led to HEALTHY.WOOD creation, a wide range of self-sealers and topcoats with sanitizing properties. **Sanitizing particle are directly integrated in their formulation:** this allows for a perfectly homogenous distribution and the entire coated surface remain consistently resistant to bacterial growth.

Their sanitizing action lasts forever, even on surfaces cleaned with particularly aggressive cleaning agents, making the use sanitizing cleaners almost redundant.

Paged Meble

Paged

Address: Cieszyńska 99 St., 43-385 Jasienica, Poland
Phone: +48 334972400 **Mail:** jasienica@paged.pl
Tax No.: 5732425575 **REGON:** 151559470 **KRS No.:** 0000850564

Export offer: home, HoReCa, B2B, office
Main export markets: Europe, Japan, Australia, USA

We develop collections of home, hotel, restaurant, and café furniture as well as furniture for other public facilities.

Paged furniture is precise manufacturing, unique design and quality expressed by a high share of solid wood and natural veneers in our furniture.

KEY FACTS:

- 140 years of experience
- 52 countries we're present in
- 30000 our production capacity for chairs per month
- 2000 colour variants for a single upholstered chair

When the end customer buys furniture for his home, he is not actually buying the furniture. What he pays for is intangible – a certain style of the interior and the impression it creates. Also the unique story behind each of these products.

Based on almost 140 years of tradition and a wide portfolio, reaching several hundred products, we are sure that we can offer you products that will charm your customers.

Do not hesitate to contact us to learn about the terms and conditions and the full offer!

www.pagedmeble.pl

More than furniture

Our furniture-manufacturing traditions date back to 1881. We are one of the leading furniture manufacturers in Europe and one of the few that manufacture bentwood furniture. Our portfolio includes collections of furniture for homes (chairs and tables), offices, restaurants and cafés, hotels and a wide range of public facilities.

65

Faithful to technology

Every piece of furniture leaving the Paged factory is unique in its own way. This is due to the synergy of high woodworking technologies and the craftsmanship of our exceptionally competent professionals, who pass on the secrets of their work to the next generation of employees.

RC Design Sp. z o.o.

Address: Brzosty 108, 96-124 Maków, Poland

Phone: +48 721721383 **Mail:** magda.garnys@rcdesign.pl

Tax No.: 8361865369 **REGON:** 367742875 **KRS No.:** 0000686036

Export offer: shops, offices, service points, private interiors (houses, flats)

Main export markets: European and foreign markets

Comprehensive services

Thanks to our resources, we are able to complete any project, even the most demanding ones. We make furniture buildings using a wide range of raw materials. From glass to metal and natural materials. We take care of the smallest details, we find innovative solutions, tailored to the needs of a given project. We provide comprehensive equipment, including electronic equipment. We perform lifting and service of commercial spaces.

Main export markets: European and foreign markets

We are a team of qualified specialists who have been creating premium furniture for commercial orders for nearly 20 years. Thanks to our passion for furniture making, we have become a leading furniture manufacturer among European contractors. Our projects can be seen in Paris, Saint – Tropez or London, Monaco or Stockholm.

www.rcdesign.pl

Buisness based on recommendations

Thanks to comprehensive service and attention to the smallest details and taking into account the aesthetic and functional preferences of the client our projects are recognized and valued by investors from around the world. Contractors return to us with new orders and recommend to other intrested customers. We take care of the project implementation and client service at the highest level.

Production from A to Z

Thanks to our own production facilities and qualified team we provide comprehensive implementation of multi-stage projects-from technical documentation to professional assembly. Within the framework of our activity we run two production plants, which consist of a team of technologists, constructors, two joinery plants, a locksmith's shop and paint shop.

Creating the future of design

As a manufacturer of exclusive furniture that focuses on quality, we have joined forces with the design studio Gomez, which operates on the premium market in the field of interior design and architecture. As a result of this cooperation, we have created a design that exceeds standards-the GO. CE luxury furniture brand, which combines a vision of the furniture, unprecedented and unique solutions, as well as the wealth and variety of materials used. The philosophy of GO. CE has become to create unique thematic lines using the interpretation of the chosen leitmotif.

Today we offer **Music, Yacht** and **Bath lines**.

Stella Sp. z o.o. / Groupe Poldem

Tax No.: 77272712988 **REGON:** 100419003 **KRS No.:** 0000290914

Export offer: upholstered furniture, modular systems, sofas, corner sofas, armchairs

Main export markets: European and non-European markets (Asian, American, African)

68

We are a Polish company established in 1998 possessing 3 production plants in our country and employing over 600 people. The core of our business focuses on the exportation to many European as well as non-European overseas countries where the on-site service of our Dear Customers and regular contact with them is maintained by sales agents, respective for individual regions.

The substantial experience acquired over the years of our activity on the global market has yielded a very wide range of various style living room upholstery developed until now. We really have invested and are still investing much in this development, continually enriching both our design and fabrics as well as the general level of final product quality. Our collection has always covered a wide group of carefully designed sofas with varying comfort and a noble finish.

www.stella-furniture.pl / www.noemebypoldem.fr

Years of experience have also brought a plenty of prestigious honors we have won over many international furniture fairs and different Polish branch contests. What is surely worth mentioning is we are a multi-

ple laureate of many industry awards such as "The Golden Medal" of The International Poznań City Furniture Fair, "The Furniture Diamond" and the "Product of the Year", granted respectively by The Meble.pl (the online magazine) and The Meble Plus (the furniture branch publisher). All these prizes are obviously a proof of the trust in the quality of our furniture and originality of its design. However, what we have always considered our greatest achievement is a trust of our Esteemed Customers and a chance for developing mutually fruitful business.

Export offer: Residential

Processed materials: solid wood, veneered wood, furniture board

Main export markets: Germany, France, Great Britain, USA, Russia, Turkey, Japan or South Korea

The coronavirus pandemic means that we all have to find ourselves in a new, previously unknown reality, and the furniture industry, like many others, has to go through a period of dynamic changes. We live in difficult and unusual times, now more than ever we have to look after the future of our companies in order to maintain our established position on the rapidly-changing furniture market. The COVID-19 crisis has unexpectedly reorganized our business life, changing consumption patterns, consumer habits and reversing the course of globalization.

We see the changes in its shape as an opportunity for our company, for Poland and for Polish entrepreneurs, who have a great chance to enter areas with their products where such an opportunity did not exist before. Today, Poland and Polish furniture can effectively compete and strengthen its position in global trade.

That is why every day at the Szynaka Furniture Group we take a number of carefully-planned actions to be able to respond quickly to threats and take advantage of opportunities offered by the current situation. We took this opportunity by taking part in the third High Point Furniture Fair in North Carolina, US, earlier this year. Participation in this event has great business potential for us, as this trade fair is an unmissable event for people deciding to introduce furniture for

www.szynakameble.com

PRATTO

PORTI

sale in American retail chains. By precisely defining the target groups and learning about their characteristics we were able to prepare an accurate and thought-out portfolio dedicated to the American market. Huge interest in our furniture during the fair is tangible proof that expansion on such a demanding market is possible and the demand for Polish products is still growing. The potential of foreign markets is great, so we are not wasting time, but investing in the development and expansion of our companies.

Today, the Szynaka Furniture Group sells its products on all continents, where we are appreciated for our reliability, credibility in business, innovation, speed, and above all, high-quality products. The results achieved by our company clearly indicate that implementation of a policy based on investments, modern technology, a comprehensive portfolio and financial stability is an effective and appropriate direction for intensifying our actions. Despite the pandemic, we are developing very quickly, opening new plants and remaining a Polish, multi-generational family company with strong capital and know-how. In September this year we opened the first plant in the Szynaka Group specialising in the production of Classic Sofa upholstered furniture.

The application of modern technological and design solutions allows us to offer highest-quality cabinet and upholstered furniture on the Polish and world furniture market. It is the ambition of the Szynaka

Furniture Group to guarantee business stability under all conditions, even in such difficult ones as those triggered by the COVID-19 pandemic. We stand for stability and our established position on the world markets is a credible safeguard not only for us, but also for our partners and customers in these difficult times. Dialogue and mutual trust are the foundation of our international success, so every day we strengthen the existing business relations and build new and lasting ones. We know that building a positive image of our country on the international arena is an important role and a responsible task, therefore, together with our team of over 3500 employees, every day we effectively implement actions promoting our country and Polish products on the global furniture market.

At the Szynaka Furniture Group we are not afraid of challenges and changes, we boldly introduce innovations and efficiently execute production orders based on the new reality and needs of our customers around the world.

LATINA

TDS Form Sp. z o.o. Sp. k.

Address: Jasionka 885 (Rzeszów), 36-002 Jasionka, Poland

Phone: +48 512040369 **Mail:** m.lorek@tdsform.pl

78

TOBO Datzuk Spółka Jawna is a Polish family company established in 1998, with its headquarters in Kuriany 104 near Białystok in Poland. It is the only company in the Podlasie region producing laminated board furniture, with certificates: PN-EN ISO 9001, PN-EN ISO 14001. Tobo furniture is made of three-layer particle-board according to DIN68765 with a density of 650-690 kg/m³ according to PN-EN14322 in hygiene class E.1.

In TOBO's offer, you will find furniture systems designed for offices, receptions, conference rooms, hotels, banks, hospitals, schools and kindergartens, public buildings and houses.

The company has several standard furniture systems, but also manufactures custom-made, non-standard furniture, as well as parcel furniture for shipping. TOBO products are characterized by modern design, which has been appreciated in many competitions in Poland, such as Good Design.

TOBO also has a wide range of complementary furniture. It daily cooperates with leading manufacturers of chairs, armchairs, metal furniture, safes and other interior design accessories and with young Polish designers.

www.tobo.pl

The company has a modern and systematically modernized machine park. It has highly qualified employees and an ultramodern and forward-looking management system that takes care of production efficiency.

Wajnert Meble Sp. z o.o.

wajnert 1985

Address: Kolejowa 67 St., Międzybórz 56-513, Poland

Phone: +48 625996710 **Fax:** +48 625996720 **Mail:** info@wajnert.com.pl

Tax No.: 9112006047 **REGON:** 21935154 **KRS No.:** 0000429627

Export offer: home and hotel furniture

WAJNERT FURNITURE is a thriving company, specialised in the manufacture of lounge and cabinet furniture. We maintain a leading position amongst Polish furniture manufacturers. We manufacture high-quality products, which are created by qualified professionals with the use of state-of-the-art, environmentally friendly FSC-certified technologies. All our collections are meticulously refined at all stages of manufacture. We make sure our furniture is exceptional, comfortable and meet the expectations of even the most demanding customers.

www.wajnert.com

In the process of furniture manufacture, we are led not only by our knowledge, experience and latest technologies, but also by our long-fostered passion.

For us, quality means success. We pay great attention to the materials we use. We make sure that the leather used in the manufacture process comes from the best Italian tanneries. We use a selection of fabrics from renown Spanish, Italian and Turkish suppliers. When it comes to cabinet furniture manufacture, we use high-quality laminated boards and modern furnishing

and finishing components. We have almost 35 years of experience. We have been developing our knowledge and passion since 1985. We are open and creative – we are not afraid of challenges, innovative ideas and novel, technologically advanced concepts. We believe that success can be achieved through looking boldly into the future, yet with respect for tradition.

The Wajnert brand is one of the most frequently chosen brands in Poland – we are appreciated not only by our customers, but also by furniture industry experts.

About OIGPM

An initiative to establish an Economic Self-government in the furniture industry was born in 1993. In December 1993, a Founding Group met and appointed the Organizing Committee from among its members. The Committee was composed of representatives of the following furniture manufacturers: Meblarska Spółdzielnia Pracy "Dąb" from Gdynia, Fabryki Mebli "MEBLEX" from Łęka Opatowska, Wielkopolskie Fabryki Mebli in Oborniki, Swarzędzkie Fabryki Mebli, Jarocińskie Fabryki Mebli and "Polskie Meble" from Poznań, Fabryki Mebli "FORTE" from Ostrów Mazowiecka. The Committee, developed a concept of the relevant organization operations, selecting a status of a Chamber of Commerce under the name of the Polish Chamber of Commerce of Furniture Manufacturers.

Over the years, OIGPM has been intensively involved in developing a reliable system that facilitates trade for furniture companies, and offers new opportunities for partnerships abroad.

Pursuant to the Articles of Association, the main objectives of the Chamber are to:

- » Represent and protect the interests of the associated business entities before the state and self-government administration of all levels,
- » Protect the business interests of its associated entities,
- » Develop the principles of best practices and fair competition in business relations.

Mission of the Chamber (OIGPM)
